Official Opinion No. 85-208

November 1, 1985

Dr. William H. Townsend
State Representative
1304 Wright Avenue
Little Rock, AR 72206

Dear Doctor Townsend:

Under date of September 25, 1985 you have written to ask, on behalf of a constituent, whether a conflict would arise if a person who was employed part time as a teacher at a private institution also accepted a position as Director of the Adult Education Center?

In my judgment there would be no conflict of interest from the facts as they have been stated. If both positions involved the handling and expenditure of public funds whereby one position could influence the actions of the other, it is possible a conflict might occur. However, I can see no such possibility in the case at hand.

Sincerely,

STEVE CLARK
Attorney General
